Projects

Nstack

Technologies:Vuejs, Vuex, Vue-router, Vuetify, material.js, animation.css, Express.js, Sequelize database.

Description:An attractive and clean designed blogging site build with vuejs. posting, searching, commenting on blog post are main features of the blog. I learned here an attractive thing that is I used here 2 server one for front end and one for backend control. If unfortunately backend database stuck with error front end will run without any harm.
